

Smarter Hand Hygiene

Handsteripod creates touchless, internet connected hand sanitisation technology designed for a better experience. Our dispensers provide a premium customisable solution for any commercial, retail or corporate environment.

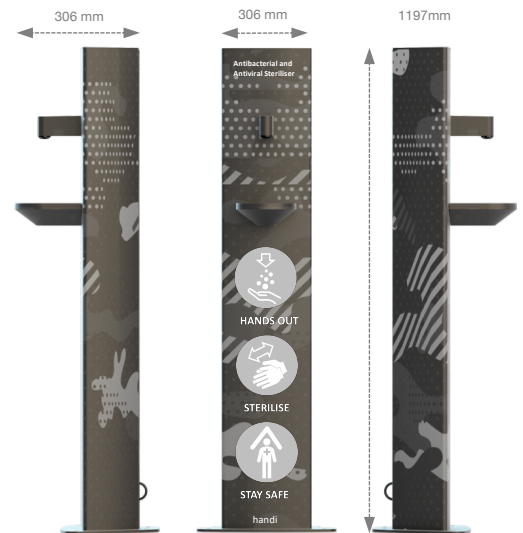

Touch Free Dispensing

Our lithium battery powered dispensers deliver touch free sanitiser using any type of solution in both indoor or outdoor environments. The internal 3.5 Litre tank has a capacity to clean 10,000 hands and sends live sanitiser levels and usage data to the cloud.

Smart Premium Dispensers

- Alcohol Free Solution
- No alcohol or triclosan and non-flammable
- Liquid, foam and gel options
- Halal approved and vegan friendly
- Scented options available
- Conforms to BSEN 1276, BSEN 1500 & BSEN 14476
- Available in 1L / 5L / 10L containers
- Independently tested to kill 99.999% of bacteria, including Coronavirus

Healthy Happy Hands

Our hand sanitisers are designed to take any type of sanitiser liquid in gel, liquid or foam forms. We can offer own brand alcoholic and non-alcoholic sanitiser as well as working alongside existing sanitiser brands.

Brand Design Customisation

Handi works with some of the world's foremost brands on customising our dispenser technology. Totems have been designed to be sprayed or wrapped in any colour or livery specific to commercial environments.
